

See the Patient, Not the Technology

Saves clinicians **up to 3 hours** per day

Increases work-life satisfaction **over 40%**

Improves productivity by **up to 20%**

How it Works

Augmedix delivers industry-leading, ambient medical documentation and data solutions to healthcare systems, physician practices, hospitals, and telemedicine practitioners.

Augmedix captures the natural clinician-patient conversations at the point of care.

The Augmedix Notebuilder Platform uses automatic speech recognition, natural language processing, and large language models to create a **comprehensive medical note**.

The structured notes are uploaded into the EHR, and the **clinician simply signs off**.

"I've had doctors tell me that Augmedix has been life-changing for them."

— Michael Crandell, Executive Director,
Mercy Medical Group, Dignity Health
